## 1. Software Installation

Use your tablet or computer to access the TSI software licensing portal at: <http://www.tsi.com/SoftwareLicensing>

Enter your contact information in order to create an account. Also, enter the Activation ID provided with your instrument. Once this is complete TSI will email you a link to the Software Download website. Use the link to download and run the FitPro™ Ultra Fit Test Software installer.

## 2. Communications Setup

Connect your tablet or computer to the PortaCount Fit Tester via the USB cable provided.

Connect the “USB-A” plug connection to the computer.

Connect the “USB-C” plug connection to the back of the PortaCount Fit Tester.

## 3. Initial PortaCount Respirator Fit Tester Start-Up

Plug the PortaCount Fit Tester into an AC power source using the power supply provided. Press the **On/Off** button to turn it on

## 4. FitPro Ultra Software Start-Up

Start the FitPro Ultra software and follow the on-screen instructions.

## 5. Verify Communications

When FitPro Ultra software launches it will automatically search for all available PortaCount Fit Testers. It will list them according to their serial numbers and provide you with an option to connect. If you do not see the instrument you want to connect with, please make sure it is powered on and verify the USB connection.

## Further Learning

You are now ready to learn about the daily operations of the PortaCount Fit Tester and FitPro Ultra Software. Refer to the PortaCount Respirator Fit Tester Operation and Service Manual. The manual is available for download from the TSI website at [www.tsi.com/softwarelicensing/](http://www.tsi.com/softwarelicensing/).

For further training on fit testing with the PortaCount Fit Tester refer to the PortaCount Academy website at [www.tsi.com/pcacademy](http://www.tsi.com/pcacademy).
